Object: support of an animal law program at the Law College of the University UAB

Dear Sirs,

I know that Professor Marita Candela of your University has proposed the creation of "International Center for Animal Law and Policy" (ICALP).

Your University is already known for its leadership in the area of animal law thanks' to different activities related the animal law and animal rights. The creation of a Center will create a scholarly focal point for the Community working in this area.

Professor Marita Candela that I have the honor to meet in relationship at the work for the Master in Animal Law and Society (she is the Director) has proven her dedication to this area of law.

The Center will allow a more visible platform for the people that work in this field. And a Center will increase the leadership in the academic world of Animal Law of the University of Barcelona.

I strongly support the creation of such a Center and suggest the University for moving with this project.

Thank you very much for your attention of this significant proposal and project.

Best regards,

Dr Alessandro Cozzi
