Research Vicerector
Universitat Autònoma de Barcelona, Spain

Dear Sir,

It is my great honor to deliver a support letter for the exciting proposal made by Professor Marita Candela, namely a creation of International Center for Animal Law and Policy (ICALP).

The creation of the ICALP will not only enhance the strength of the University, but also encourage further worldwide development of Animal Law in other countries like in Asia.

Personally, I was fortunate to do summer internship at the Universitat Autònoma de Barcelona with Marita to conduct research on animal law, and witnessed the great strength of the University regarding Animal Law field. Considering the fact that it is not easy to find a place to study Animal Law while many scholars desires a path to be Animal Law researcher, I strongly believe that Professor Candela's proposal of the center is very valuable and world wants to the development of the ICALP.

Your thoughtful consideration is highly appreciated.

Moe Honjo
