Dear Sirs,

It has come to my attention that Professor Candela of your University has proposed the creation of "International Center for Animal Law and Policy" (ICALP). I have worked with the Professor for a number of years and visited your great University to attend conferences and teach classes. You have a great base of individuals who are internationally known and respected for their good work and amazing students. I strongly support the creation of a Center and commend the University for moving in that direction.

The creation of a Center will build upon this, creating a scholarly focal point for all of us working in this area. Professor Candela has proven her dedication to this area of law and the creation of a Center will allow a more visible platform for the world to see her leadership in the academic world of Animal Law.

Thanks you for your consideration of this important proposal.

Yours truly,
