20th July 2015

Dear Sir,

I have the privilege to know Professor Teresa Gimenez-Candela and her great work in the field of animal law filed since several years. She hosted the 2<sup>nd</sup> Global animal Law Conference in Barcelona in July 2014 which was unanimously recognized by her colleagues and the broad public as a real success.

I have now been informed that Professor Candela wishes to set up an "*International Center for Animal Law and Policy*" (ICALP).

Knowing her professionalism and her dedication to the development of animal law, I fully support her project and recommend your distinguished University to give its agreement.

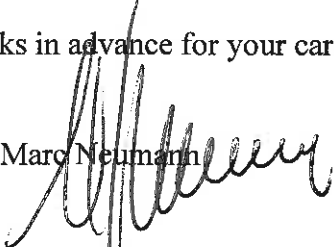

In agreeing to the creation of the ICALP, the UAB would, once again, be an example in Europe as a leading academic center in animal law and would attract even more students from all over Europe.

In short, the creation of the ICALP would greatly be beneficial to the UAB.

You can count on my personal support to provide all necessary assistance to Professor Gimenez-Candela to make this project be reality in the near future.

Thanks in advance for your careful consideration.

Jean-Marc Neumann
